

Focus on what
matters most.

Kangaroo  time

Kangarootime is the leading all-in-one software for childcare centers and preschools.

We help childcare centers focus on what's most important—the children.

Save time for what's important. Grow your business. Build relationships.

Meet Magic Memories

9 Centers Throughout
Pennsylvania

Focused on child-centered
learning

Uses Kangarootime to
automate their business

Jennifer Sturman, VP, Operations

Goals

- Provide value to families
- Automate processes
- Grow the business

Meghan Marchesani, Regional Director

Goals

- Save time on invoicing and billing
- Improve relationships with parents
- Make day-to-day tasks easier for teachers

Kangarootime helps Jennifer and Meghan save time, save money, and stay organized.

Jennifer and Meghan can..

Automate MM's revenue cycle

Communicate with parents

Manage their classrooms

Kangarootime gives Jennifer and Meghan a glance into each space at all times.

With our rooming module, teachers and staff can manage classroom ratios, record daily notes, take attendance, and check in and out.

Jennifer and Meghan can communicate with parents at the push of a button.

See Upcoming Events

Make Payments

Kangarootime saves Jennifer and Meghan time by automating their billing processes.

Collect Payments

We automated Magic Memories' revenue cycle, freeing up time and making it easier to collect payments.

Send Invoices

We send invoices directly to parents and charge their account accordingly.

Access Reports

We even compile all of Magic Memories' data files so they can save their records or export them to any third-party providers.

Onboarding

Our team helped Jennifer and Meghan every step of the way during the onboarding process to make sure they understood each part of our software.

Real Support

If Jennifer or Meghan has a question or needs support, they call a real person, not a bot and we're there to help.
6 a.m. - 8 p.m. EST

Thanks to Kangarootime, Jennifer and Meghan have **more oversight** over Magic Memories and a **deeper understanding** of its cash flow.

They **save time** and can focus on creating new employee training programs, a new virtual tour for parents, and implementing other new initiatives.

They've also noticed an **increase in parent satisfaction** overall with the connectivity and engagement offered through the parent app.

“Kangarootime blew me away from the moment I sat in on the presentation. I think the rooming aspect always seals the deal for everyone. As a director, when you’re in different places and you know where everyone is in the building, that’s a huge perk.”

- Jennifer Sturman, VP of Operations, Magic Memories

“I love the rooming! Being a director, I can be anywhere in the building and look at the tablet or computer and see where every child or teacher is located. **The billing feature is awesome.** I spend less than an hour each week doing billing. Before Kangarootime, I spent at least 8 hours a week on billing.”

- Meghan Marchesani, Regional Director, Magic Memories
